

LDS SPECIFICATIONS

Watco make LDS gives Auto Switching for any electrical equipment (auxiliary) like parking lights, Campus lights with respect to natural light intensity. As darkness increases Relay gets ON (Lux adjustable) and as light Intensity increases relay gets OFF. Accordingly equipment switches ON/OFF with respective Light intensity.

Features

- Easy to install (user friendly unit)
- ON Time delay indication and OFF time delay indication
- for flicker free operation
- Visual Indication for position of relay (ON/OFF)
- Lux adjustment knob available
- Sensor can be fixed away from unit
- Sensor is Weather Proof
- Auto / Manual switch provided on unit

Applications

- Use for Dust to Dawn

Technical Specifications	
Supply Rating	230V,50 Hz
Contact Rating	1 C/O 5 A or 30 A 240VAC (Resistive Load)
Preset threshold	2-3lx
Delay time (ON/OFF)	30 sec
Enclosure	Powder coated M.S.Box,ABS DIN Rail
Dimensions	L-155mm, W-90mm, D-75 mm (Wall mounting) (W-45mm, H -72 mm,D110mm)
Approx. Weight	400 gm.(Approx
Mounting	Wall/Din rail
Sensor	LDR (Outdoor mounting)
